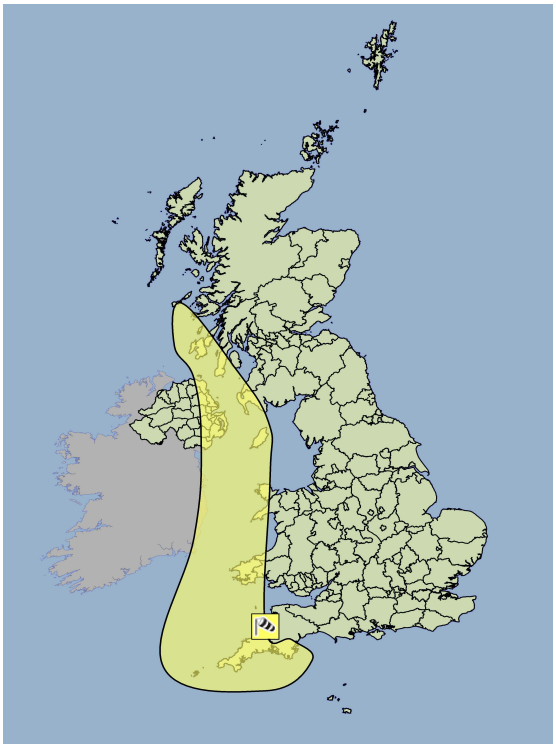
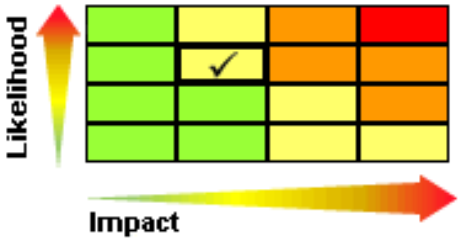
National Severe Weather Warning Service





Chief Forecasters Assessment
A small but active depression will move quickly northwards during Thursday, bringing a short-lived period of gales and severe gales. The region of strongest gusts will progress from the southwest of England during the morning, through areas adjoining the Irish Sea in the middle of the day, before clearing from western Scotland in the afternoon.

The Met Office have issued a **Yellow Warning** of **Wind**

Valid from **08:00 on Thu, 13th Nov 2014** until **16:00 on Thu, 13th Nov 2014**

An area of gale and severe gale force south to southeasterly winds will move northwards across some western fringes of the British mainland and the eastern counties of Northern Ireland during Thursday. Winds may gust to 60 or even 70 mph in places. The public should be aware of the risk of some disruption to travel and damage to trees, conditions made worse by heavy rainfall in some areas, for which see separate warnings.
